

PRENET STRUCTURED CABLING SOLUTIONS

110 Cross Connect System, Wall Mounting Frame

Description:

The 110 basic and extension cross-connect rack are suitable for mounting the 110 wiring block on the wall. The 110 cross-connect rack provides high density and additional cable access within a compact space. Mount to walls or backboards in building entrance facilities, telecommunications closets and equipment rooms.

Application:

Used in building entrance facilities, telecommunications closets, and equipment rooms to provide fixed cross-connections for voice and data applications.

Features:

- ❖ Each unit has a 300 pair capacity.
- ❖ Tower and wall-mount cord manager densities of up to 900 pairs are achieved by adding extension units onto Basic units, up to 3 units high. For the first 300 pairs, specify Basic Mounting Frame Units or Kits. For each additional 300 pair requirement (up to 900 pairs), specify Extension Mounting Frame Units or Kits.
- ❖ Port ID option: Use the label strips and holders provided with the kit versions of these products.
- ❖ Mount securely to wood-based backboard.
- ❖ Route cable bundles through the back of the mounting frame; secure with cable ties, without over-stressing the cables.
- ❖ Route individually marked cables through the side slots provided; entering from both the left and right sides.
- ❖ Position vertical cord managers adjacent to wall mounting frame units and kits.

110 Basic cross-connect rack with bottom cable holder

110 Extension cross-connect rack

Physical Specifications:

Dimensions:

Basic Mounting Frame: 21.5"H x 8.5"W x 9.13"D
