

Floor Standing Cabinets

Opterna floor standing cabinets are designed to meet the ever increasing demands of networking equipment located within a cabinet. To service the diverse requirements of structured cabling, active equipments and server space, the cabinets are engineered to be sturdy, robust but light weight.

Features

- Robust Aluminum extruded frame structure.
- Side Panels with slam latches and locking facility with 1/3rd ventilation.
- Full Vented Top Cover with cable entry provision and gland plate.
- Bottom Cover with cable entry provision and gland plate.
- Depth Support channel.
- Reducing cable channels.
- 19-inch equipment mounting angles.
- Integrated base plinth of 100mm.
- Front toughened tinted glass door with 3 point lock.
- Rear mesh door with 3 point lock.
- Fan housing unit.
- Leveling feet.

Applications

Designed for installations that comply with the EN 50173-1, EN 50174-1 & 2, ISO/IEC 11801, ANSI/TIA/EIA-568-B.2

Technical Specification

Standards

- Comply with mounting dimensions to IEC 297-3, DIN - 41494 for all electronic equipments.
- IP 20

Material

- 19" Mount rails are 2.0 mm thick.
- All side panels, top and bottom covers are made in 1.2mm thick CRCA sheet.

Loading Capacity

- 800 KG

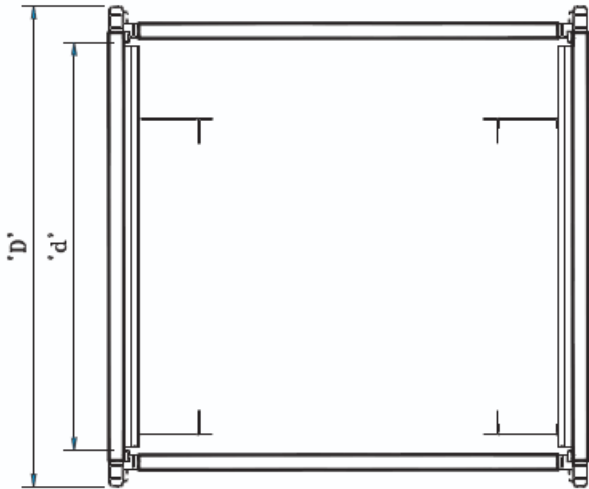

Surface Finish

- Powder coated
