

CABLE MANAGEMENT SOLUTIONS

Open Racks

The Open frame rack design allows the users the flexibility of having an "all side access" of the mounted equipment. The units which can either be fitted on the floor or allowed to move and are particularly well suited in data communications and networking applications where equipments mounted require "all side access".

The 2-Post Frame Open Rack is made of 2.0 mm steel. Available in 19" models with heights ranging from 27U to 42U. Multiple racks can be bayed with the help of baying kit. The top and side frames are provided with cable entry cut outs which allow effective routing of cables.

These products can be modified and customized with the help of Opterna accessories to specific user requirements.

Features

- Frame of solid steel construction.
- Top cover provided with cable entry cutouts.
- Front face and rear mounting flange.
- Reducing cable channels.

Technical Specifications

Standards

- Comply with DIN 41494 & IEC 297.

Material

- Steel construction of 2.0 mm thick.

Loading Capacity

- 362 KG

Surface Finish

- Powder coated

Applications

Designed for installations that comply with the EN 50173-1, EN 50174-1 & 2, ISO/IEC 11801, ANSI/TIA/EIA-568-B.2
