

FIBER MANAGEMENT SYSTEMS

Sliding Fiber Optic Patchpanel

Opterna Fiber Optic 19" Unloaded Sliding Patch Panel has been designed to facilitate internal fiber management and also to maximize fiber density in 1U, 2U heights. The sliding tray feature is incorporated to facilitate easy access for maintenance of internal fiber within shallow enclosures. Constructed from mild steel with a powder coated finish the panel is available in Black or Grey colours. The panel supports 24 way and 48 way configurations in SC simplex, SC Duplex, ST/FC(D cut out), LC Duplex(SC simplex foot print), LC Quad(SC Duplex foot print).

Applications

- ☒ Offers solution for Optical Splicing and Patching.

Specifications

- ☒ Can be installed within the standard 19" racks and wall mounted enclosures according to IEC 297-3 specification.
- ☒ Rear of panel offers a range of apertures to accommodate a variety of gland configurations.
- ☒ Minimum depth 235mm and the base panel is designed for customized fiber management with additional anchoring points for incoming cables.
- ☒ Front face of the panel includes a port identification strip.
- ☒ Fiber management kits and Splice cassette are offered as accessories.
